

NORLITAX®

Compatible with the treatment of **zamak** parts

Jédelé Traitements de Surface

An innovative and **ecological** electrolytic coating that eliminates the need for products which are potentially cancerogenic, mutagenic, dangerous for the reproductive system or allergens. It also has the following **remarkable properties**:

- exceptional rust resistance:

rust resistance for barrel plating	rust resistance for rack plating
> 200 hours without white rust	> 800 hours without white rust

- friction factor of 0.15 +/- 0.03;
- no change in appearance after 120 hours of UVA exposure;
- improved adhesion of paint (powder and liquid) and polymers;
- no change in appearance after a humidity test at 40°C and 95% relative humidity for 56 days.

To take advantage of this revolutionary new treatment, do not hesitate to contact:

Jédelé Traitements de Surface

6 rue Alfred Jédelé – ZI Gare – BP 20108
